Summary

I am a fourth-year high school student in a technical institute specializing in computer science and telecommunications. I believe that the path I have taken is vital for my growth, and I hope to be able to benefit from all the opportunities that are offered to me. I am currently trying to take on new skills while trying to overcome my current problems with programming and mathematics (since I'm having difficulty). I am confident in my abilities and I know that if I put in the effort I will be able to achieve excellent results.

Education

Computer Science and Telecommunications course at *Antonio Monaco Industrial Technical Institute* - Diploma expected 2025/2026

Languages

Italian - Native
English - Intermediate

Skills

 \LaTeX

 Linux

 git
